EXAMINER'S AMENDMENT

And

EXAMINER'S REASONS FOR ALLOWANCE

1. Claims 35-48 are allowed.

Examiner's Amendment

2. An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it MUST be submitted no later than the payment of the issue fee.

Authorization for this examiner's amendment was given in a telephone interview with Gary D. Yacura Reg. No. 35,416 on 7/28/2009.

The application has been amended as follows:

In claim 35, line 14 the word "and" at the end of the line has been deleted and the phrase, -- graphically filtering, by the graphical user interface, the graphical fuel bundles in the graphical loading map, the graphical filtering based on the input of at least one fuel attribute; and -- has been inserted.

Claim 42, line 6 has been changed from, "one or more loading tools with the graphical user interface graphically sorting, filtering or moving graphical fuel bundles in the graphical loading map, based on at least one fuel attribute of the fuel bundles" to -- graphically sorting, filtering and moving, with one or more loading tools within the graphical user interface, graphical bundles into the graphical loading map, the sorting, filtering, and moving based on at least one fuel attribute of the fuel bundles --.

Examiner's Reasons for Allowance

3. The following is an examiner's statement of reasons for allowance: While *O'Sullivan* teaches a Fuel Map with a Graphical User Interface and *Hogan* teaches a loading tool in the GUI and *Fawks* teaches populating a loading map based on an attribute and U.S. Patent 6,931,090 to Chao et al. teaches an optimized loading pattern for nuclear reactor core, see Figures 5-6C, **none of these references taken either alone or in combination with the prior art of record disclose**, a graphical loading map being generated based on a user input and a graphical filtering in the loading map, specifically including;

(claim 35) "graphically filtering, by the graphical user interface, the graphical fuel bundles in the graphical loading map, the graphical filtering based on the input of at least one fuel attribute",

(claim 42) "graphically sorting, filtering and moving, with one or more loading tools within the graphical user interface, graphical bundles into the graphical loading map, the sorting, filtering, and moving based on at least one fuel attribute of the fuel bundles", **in combination with the remaining elements and features of the claimed invention**. It is for these reasons that Applicants' invention defines over the prior art of record.

3.1 As regards dependent claims 36-41 and 43-48 they are allowed for at least the reason that they depend upon an allowed base claim.

3.2 Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue

fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
